AVENTOS HK TOP STAY LIFT SYSTEM

The mechanism is small enough to fit discreetly in the corner of the cabinet, yet robust enough to handle wide and heavy doors. It features a pre-integrated safety mechanism and ensuring that doors do not hit ceilings or upper structures. With integrated BLUMOTION, the system provides a silent, effortless soft-close every time. The variable stop feature allows the front to remain in any desired position, keeping the handle easily accessible.

Built-in opening angle stop (adjustable between 75° and 107°)

~ KITCHEN FAUCETS ~

This kitchen faucet features a sleek design with a pull-down sprayer for added convenience. It includes a single lever handle for easy temperature and flow control, and the sprayer has multiple settings to accommodate different tasks. The faucet is constructed from durable materials to ensure long-lasting performance and can be easily installed in a variety of sink configurations.
